We have been associated with TranslationPanacea for our Marathi translations programme since their inception, and are very impressed with their professional handling of the translation process – right from the actual translation to type-setting, editing, proof-reading and providing print-ready files, they are efficient, reliable and hassle-free.

They have a competent and dedicated team of translators, editors, type-setters etc, and timely delivery of a job is one of their strengths.

TranslationPanacea is an excellent one-stop-shop for quality translations...we highly recommend their services.

Testimonial for Mrs. Vidula Tokekar

Friends,

Growing business in a geographical zone which speaks different languages is a challenge. I faced the same when I tried to establish an office in gulf countries. I was told by my counterparts in Dubai and Kuwait, that I need to have my website written in Arabic script to promote the business.

I wish to put on the records that I felt blessed to have Vidula in our chapter. I sent her a page content written in English, and believe it or not, but in less than 3 hours she replied back with an Arabic version. Moreover, it was absolutely flawless, as approved by my Arabic contacts in gulf country. This is possible only with a person's knowledge and subject matter expertise and not by google translator. There are many translators out there but there are very few like Vidula whose sheer professionalism and impeccable work quality makes her stand out and shine in the crowd.

Vidula, thanks much for your great services. This encourages me to generate referrals for you, and also urge our fellow chapter members to join me because when Vidula is with us the Language is No Bar.

Thanks and regards

Prashant Phatak
